A Remarkable Case.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent. *

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Disease. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumptien, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives, try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

DENTISTRY.—Dr. Cool calls attention to the beautiful alluminium-lined vulcanit-plates for upper and lower sets. The advantage of this work is that it is very thin, much stronger and lighter than the common plate usually worn; also, being a better conductor of heat and cold, it does not produce the iritation, sometimes caused by rubber or non-conducting substances. I make these sets for $35, something never before done, and guarantee my patrons that after once wearing one of them they will wear no other. The treatment of diseased teeth and fine operating I make a specialty. Teeth built up with pure gold to their natural contour; artificial crowns adjusted to roots in the best manner. Work of every description done anywhere I engage to do at the most reasonable prices *

JAMES is in possession of medicines that never failed to stop and cure DIPTHERIA, SMALLPOX, CROUP and all FEVERS in a few hours. N. B.—Mrs. James, midwife of long experience and successful practice in this city, is open to engagement.

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking,
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Ih vana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker,
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory,
The best and cheapest in Victoria.

ANOTHER WONDERFUL CURE
—EFFECTED BY—
California Elastic Truss!

CALIFORNIA ELASTIC TRUSS CO., W. J. Horne Proprietor—Dear Sir: I feel that I owe it to you and to humanity to write the fact that I have been *SUBSTANTIALLY CURED* of a bad case of rupture of thirty years' standing, by one of your incomparable Trusses, which I purchased from you three months ago. I cannot describe the suffering, both physically and mentally, that I have undergone during that period; and now I feel like a new being. I have worn all kinds of Trusses, both Steel and Elastic, and never received any permanent relief until I tried yours. Its simplicity of construction, and facility with which it can be adjusted, and the ease and perfect freedom to the motions of the body with which it can be worn without causing any irritation, are its chief merits, and it is a perfect supporter. I have not had any sign of a return of the rupture since the first day I put it on and feel that I am *PERFECTLY CURED*. It is invaluable, and the fact should be known to the world. You can refer anyone to me on the subject of its merits.
I am truly yours, ALFRED J. BURKE,
Chief Mail Clerk S. F. Daily Evening Post.

Remember that procrastination is the thief of time so
COME AND BE HEALED!

It matters not what your troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

THE MUNICIPAL ELECTION.

This day week the ratepayers of the City will be called on to elect a Mayor and Council to represent them for the ensuing term. We are aware that steps have already been taken to secure the return of the right class of candidates and on several occasions we have congratulated the ratepayers on the movement. But they must not for a moment imagine that they have performed one half of that which is necessary to render success certain. It is not merely enough for a few ratepayers to wait upon an esteemed citizen and assure him that if he will permit himself to be nominated, they will give him their hearty support. They must be prepared to go further than this and must be in a position to state that they have canvassed the ward for which they desire their candidate to run, and have discovered that he will be elected without a doubt. It is necessary too that a "full" ticket should be run in each precinct, for otherwise, no matter how carefully the operation of the ballot may be explained, there will always be found certain voters who cannot under any circumstances resist the temptation of voting for as many candidates as there are vacancies. To illustrate what we desire to be understood as meaning we will suppose that in a certain ward which is to return two candidates A and B are running together on what we will term the Taxation ticket; C is the only other candidate in the field and he is running in the interests of economy and constitutionality. Our readers will perhaps scarcely give the statement credence, but it is true nevertheless that there are men—men of intelligence too—who having pledged themselves to vote for C cannot refrain from "chipping" a vote in for either A or B as well. The effect of such a vote is simply *nil*, and the elector might just as well have stayed away from the polls altogether. Therefore we say it is necessary that a ticket should be filled; but care should be taken that C's colleague is at least his equal in popularity and as near as may be his counterpart in views pertaining to civic matters of vitality. It has been the great misfortune of ratepayers in the past that they have lacked organization and have fallen into the habit of leaving matters of detail to their neighbors, who in turn left them to theirs and consequently both the details and ratepayers were eventually "undone." Now, if this description of programme is to be repeated during the present campaign the result obtained in the past will doubtless be repeated in the very near future. But there is no reason why this system of leaning on one's neighbor should be resorted to. individual efforts must be put forth by all who desire to see the City in a state of future prosperity and free alike from embarassment and unnecessary debt. Those individual efforts, when united. will be found to have accomplished much more than ever was expected of them, and not the least surprised will be those who first put "their shoulders to the wheel" to accomplish the same good ends. They will be literally astonished when they perceive how large a wheel their individual, yet united efforts have been capable of placing in rotation. No difficulty was found in securing a very long and influential list of signatures to the requisition in favor of Coun. TURNER for Mayor, nor should there be much trouble in obtaining a sufficiency of pledges to good men to render their election certain. We could mention the names of several most worthy citizens, whose modesty renders it necessary that they should be asked to stand before they will come out. They are men of unsullied character, whose names alone are suggestive of honor and integrity. Let them be asked before it is too late. There is one more point we would refer to before we conclude this article. We refer to the Mayoralty. Coun. TURNER, a very worthy gentleman and highly esteemed citizen, will in all human probability be elected Mayor for 1879 without opposition, and we have not the remotest desire that such should not be the case. But we want to direct the attention of the ratepayers to this very plain statement. Coun. TURNER will, to all intents and proposes, be elected by a majority of the entire voting population of the city. Well, what of that says the reader? Simply this. Coun. TURNER is *not* an untried man. He has been tried and found true. His policy is well known. His votes are on record; his views on many points, which will engross the attention of the incoming Council, are already the property of the public. These are well known facts and, possessing a knowledge of them, a majority of the ratepayers in every ward express their approval of his policy by conferring on him the highest position within their gift. We allude to this circumstance to prove how manifestly absurd it would be were the self-same electors, who will place Mr. TURNER in the civic chair, to return as Councillors four out of seven who have ridiculed every vote cast by him because he dared to do what he believed to be right. It is not a matter for any wonderment that the names of four of Coun. TURNER's enemies are foremost amongst the signatures to his requisition. It may readily be imagined that those gentlemen were anxious to rid themselves of so valuable a member of the opposition.

ENGLAND AND AFRICA.

Mr. STANLEY, the African explorer, has been trying to explain to the English people what benefits they may possibly derive from the opening up in the "Dark Continent" of a new field for British trade. At a comparatively small cost a railway could be constructed from Zanzibar to Nyanza, and a traffic of immense proportions might thus be opened with the populous empire of Central Africa. Whatever prospect there may be of new enterprises in this region, there is no doubt that the British Empire is making steady advances in the southern part of the continent, where it has been gradually increasing its possessions by annexation of native territory and of Dutch republics. Even now, the war that is being waged with some of the tribes will most certainly end in the addition to the British dominions of the extensive regions of Caffraria, as well as the country of the Zulus and the Bechuaners. There is no reason to question the probability of a great Anglo-Saxon nation yet occupying Africa, before which the natives would recede as rapidly as the original inhabitants have disappeared before the white man on the American continent.

FORGETFUL OF PRECEDENT.

It is the habit of Liberal journals at the present time to charge Lord Beaconsfield with having revived absolute government. The same accusation has, however, been brought against Mr. GLADSTONE on more than one occasion, and threats of impeachment were freely made. When the Lords obstructed the passage of the bill abolishing the purchase of commissions in the army, the Liberal Premier produced a musty precedent, and advised her Majesty to issue a royal warrant abolishing the system of purchase, which was done. Again, on the occasion of the Lords obstructing the Irish Church Disestablishment Bill, Mr. GLADSTONE threatened to advise her Majesty to create a batch of new peers sufficient to overcome the hostility of the Upper House as then constituted. While such action was, no doubt, within the Royal prerogative, it had never been done before, except on a very limited scale. In endeavoring to hit Lord Beaconsfield, Mr. GLADSTONE and his followers forget the occasions when they strained the Royal authority.

THE ORCAS ISLAND MURDER.—Says the Seattle *Intelligencer:*—In our last issue we gave a brief item concerning the murder of George Phillips, of Orcas Island. From a friend cognizant of the particulars we learn the following:—George Phillips was a little Frenchman who had been living with a kloochman for a few years past near the lime kiln on Orcas Island. On Tuesday evening, the 24th inst., there was a dance given in that neighborhood, which was attended by Phillips and his squaw. During the festivities of the occasion, Phillips paid considerable attention to a young and handsome half-breed, which action did not meet the approbation of his own maiden of the forest, who told him in plain language that she would fix him when she got him home. After a lively little quarrel between them the matter quieted down, and no one expected to hear any more regarding it. But this supposition proved unfounded, as the sequel will show. The next day, after arriving home, Phillips and a half-breed boy of hers, 18 years of age, started up the road, and before proceeding very far they were fired upon by the squaw, who had procured a shot-gun and secreted herself in the brush to await their arrival. Phillips fell a victim to the first shot, being completely riddled with the contents of the gun. The woman then attempted to kill her own son, but he made good his escape. The woman was arrested and taken to Port Townsend where she awaits trial for murder in the first degree.

THE shipbuilders of the Maritime Provinces are devoting attention to the desirability or otherwise of abandoning the building of wooden ships in favor of iron vessels. This subject has been forced on their attention owing to the scarcity of freights for wooden ships. Few vessels of this character are now constructed in England. The Germans sold off nearly the whole of their wooden tonnage to the Norwegians not long ago. Although Norwegian vessels are worked more cheaply than those of any other nation, yet this year they have been laid up three months before the usual time. With iron at its present low price, and the prospect that it will so remain, the outlook is favorable to the substitution of wooden for iron vessels.

MUTINY IN THE GAOL.—Yesterday morning the Chinese prisoners, nine in number, unconditionally refused to go to work as usual on account of having had their queues cut off. The jailers and guards first tried persuasion, but finding that was of no avail had recourse to the cold water cure and turned the hose on the obstreperous Mongolians. After the celestials had jumped about some while in their futile attempt to escape the watery foe, they concluded that discretion was, after all, the better part of valor, and went to work with their spirits somewhat damped. Verily there is nothing like cold water for lazy and obstinate persons, especially unclean Chinese, such as those at present in the gaol.

SOCIAL.—Another of the series of entertainments in connection with St. Andrews Presbyterian Church will be held this evening at the school-house, Broughton street. An excellent programme has been selected for the occasion, consisting of vocal and instrumental music, with readings and recitations. There is no doubt but that the attendance will be large, as these socials have become most popular with all who desire to spend a pleasant evening. Doors open at 7:30 p.m.

THE Port Madison steamers Politkofsky and Ruby were sold by Sheriff Wyckoff, subject to the liens against them. They were bought in by Messrs. Dexter Horton & Co., the parties holding the mortgage, the former boat $5,900 and the latter for $1,150. The mortgages and interest thereon amount to over $16,000, while the liens are in the neighborhood of $550. *Seattle Tribune.*

ACCIDENT.—Mr. S. G. Smith, while clearing a piece of ground near the brickyard yesterday was so unfortunate as to take the great toe of his right foot nearly off. The mischance was the result of his axe glancing. Dr. Ash is attending the sufferer, and hopes that he can replace the toe.

Workingmen's Protective Association.

At a meeting of this society held last evening at the Good Templars Hall, Yates street, the following officers were elected for the ensuing year:—President, N. Shakespeare; Vice-President, J. Macknerhanio; Secretary, Mr. Lewis; Treasurer, W. Smithers; Assistant Secretary, Mr. Murphy; Door keepers, Messrs. Ross and Texal; Room committee, Messrs. Halpenny and Wells; Finance committee, Messrs. Maclean, Healy, Began, Anderson and Bell. At the close of the election President Shakespeare informed the members present, (about 50) that he had at last been able, through his influence with the city members and government to bring into effect the act requiring that all long term prisoners should have their heads shaved. This had been done more particularly for the Chinese, several of whom, he was happy to say, had in accordance with this ordinance been deprived of their queues. He had taken great pains to obtain one of them (which he produced) and which he intended keeping as an heir-loom in his family. He next addressed the meeting on the coming Municipal election, stating that he was a candidate for James Bay ward, and as he considered he had done all he could in the interests of the city he hoped any present who might have a vote in that ward would support him. He also spoke strongly in favor of Couns. Williams and Dalby. A vote of thanks was then tendered to Mr. Shakespeare for the very able manner in which he had conducted the Chinese tail question. The meeting then adjourned.

Week of Prayer.

At the suggestion of the Executive Committee of the Evangelical Alliance of the United States, the Methodist Church throughout the Province will observe this week as one of prayer. The subjects for the various evenings being as follows:—Sunday, Jan. 5th, Rev. Mr. Smith, the pastor, gave a very interesting dissertation on "Christian Unity." Last evening Rev. Mr. Pollard gave a sermon on "Thanksgiving for the blessings of the year past and prayer for their continuance." The subject for to-night will be, "Prayer for the Church of Christ, its ministers, its growth in grace and its enlargement." On Wednesday, January 8th, "The family, the young, colleges, seminaries of learning, Sunday and other schools; Christian associations of young men and of young women." Thursday, Jan. 9th, "For nations, rulers and people; for peace and religious liberty on the earth." Friday, Jan. 10th, "The press; for a blessing on publishers, editors and authors; the cause of temperance and other social reforms." Saturday, Jan. 11th, "Home and foreign missions and the conversion of the world." On Sunday evening, Jan. 12th, it is suggested that public union prayer meetings be held for prayer, praise and the presentation of the object and work of the Evangelical Alliance.

Fat Man Made Happy.--Loses 61 lbs.

PRATTVILLE, Ala., July 20th, 1878.
BOTANIC MEDICINE CO., Buffalo, N. Y.:
Gentlemen:—About three months ago I commenced using your "Anti-Fat," at which time my weight was 219 pounds. By following your directions carefully, I have succeeded in reducing my weight to 158 pounds. This is all very satisfactory and pleasant; but just previous to my commencing the use of your medicine, I had purchased two suits of fine clothes at a high price, and find, to my dismay, that they are entirely useless to me now. When I put one of my coats on, my friends toll me it looks like a coffee sack on a bean pole, and when I put the pants on—well, description fails. My object in writing is to ascertain whether you have not in connection with your medicine business, an establishment where your patrons similarly situated, could exchange these useless garments for others that would fit. I think you ought to have something of the kind, as it would be an inducement for many to use the Anti-Fat, who now object to using it, in consequence of the loss they would sustain in throwing aside valuable garments. Just turn this matter over in your mind. A "Clothing Exchange" is what you want in connection with your Anti-Fat business.

* Yours truly. GEORGE BOYD.

The *Tribune* says: During the year just closed the Seattle Coal Company have shipped to San Francisco from Seattle just 128,582 tons of coal. Their shipments for the past month have been 15,827 tons., the largest shipment for any month for the year. The company contemplate increasing the product soon to 1,000 tons per day.

The *Intelligencer* states that last Tuesday night the Martinsburg brewery, situated on Black river, Henry Rhemke, proprietor, caught fire from some unknown cause, and burned to the ground. Loss supposed to be upwards of $2,000.

The mail route from Tacoma via Steilacoom to Olympia, the service of which has been performed by the steamer Zephyr, was discontinued on the 1st inst.

Mr. John Collins, the popular proprietor of the Occidental Hotel, commenced the new year of 1879 by discharging all the Chinese help about the house, and substituting white employés in their stead.

The ship Belvidore, bound from San Francisco to Departure Bay for coal has arrived at Port Townsend.

TO BE HANGED.—James Cook, found guilty of murdering George Craig near the Dalles on the 1st December last, is to be hanged on the 7th inst. The *Inland Empire* says "the great ruffian sat calmly during the trial and received his sentence coolly and without remark."

ST. JOHN'S SUNDAY SCHOOL will hold their annual festival on Thursday next. This has always been a very favorite school treat, and there is little doubt that this one will be as well attended as others. All members of the congregation and parents of children are invited to attend.

PURGATION.—Sheet music £0.6s.8d. per lb. Its presence like a blighted spectre and a shadow for a "quid pro quo."

EDITOR COLONIST:—Is it not a suspicious circumstance when men year after year seek to have a finger in the municipal pie? It takes much of a man's time, and should occupy much of his thoughts, to properly discharge the duties of a Councillor, and for this he gets no pay unless it be the approval of his own conscience and the commendation of his fellow-citizens. Enough, if one man gives two years or so to such public business. Let him thereafter repose on his laurels, if well earned, and afford opportunity to new aspirants to show what they can disinterestedly do for the public weal. Away with axe-grinders.

QUEBEC, Dec. 12.—Hon. Dr. Fortin, M. P., ex-speaker of the Quebec legislature, in a lecture before the Quebec board of trade, demands that a portion of the American fishery award be expended in erecting a system of telegraphy from Quebec and the gulf and islands of the St. Lawrence, and argues that from the award being paid under protest, the Americans do not intend again leasing Canadian fisheries on the same conditions. The unexpended balance should be invested to provide means for the future protection of Canadian waters from American fisherman. Considering that Canada has from three to four thousand miles of fishing coast, the lecturer believed that fifteen steamers at least would be required to keep trespassers from its waters. Dr. Fortin is the leading supporter in parliament of Sir John A. Macdonald, and additional importance is thereby given his public utterances. His scheme of telegraphy to the gulph is considered of immense national importance to Canada.

ST. JOHN, N. B., Dec. 12.—Simpson, Wallace & Co., organ makers, have failed.

A Scotch Effort with the Long Bow.

Concerning the long-bow, no American effort can surpass one that comes to us from Scotland:

"It was told that Colonel Andrew M'Dowall, when he returned from the war, was one day walking along by The Myroch, when he came on an old man sitting greetin' on a muckle stane at the roadside. When he came up, the old man rose and took off his bonnet, and said,

"'Ye're welcome hame again, laird.'

"'Thank you,' said the colonel; adding, after a pause, 'I should surely know your face. Aren't you Nathan M'Culloch?'

"'Ye're richt, 'deed,' says Nathan; 'it's just me, laird.'

"'You must be a good age, now, Nathan,' says the colonel.

"'I'm no verra aul' yet, laird,' was the reply; 'I'm just turnt a hunner.'

"'A hundred!' says the colonel, musing; 'well, you must be all that. But the idea of a man of a hundred sitting blubbering that way? What over could *you* get to cry about?'

"'It was my father lashed me, sir,' said Nathan, blubbering again; 'an' he put me oot, so he did.'

"'Your father!' said the colonel; 'is your father alive yet?'

"'Leevin I ay,' replied Nathan; 'I ken that the day tae my sorrow.'

"'Where is he? says the colonel. 'What an age he must be! I would like to see him.'

"'Oh, he's up in the barn there,' says Nathan; an' no in a horrid good humor the noo, aither.'

"They went up to the barn together, and found the father busy threshing the barley with the big flail and tearing on fearful. Seeing Nathan and the laird coming in, he stopped and saluted the colonel, who, after enquiring how he was, asked him what he had struck Nathan for.

"'The young rascal!' says the father. 'there's nae dooin' wi' him; he's never oot o' a mischief. *I had tae lick him this mornin' for throwin' stanes at his grandfather!*'"

EUROPE.

LONDON, Jan. 5.—The state line steamship, State of Louisiana, for New York, which went ashore in Loch Lorne December 24, went to pieces on Saturday.

Striking employees at all points on the Midland Railway remain very firm. The company is filling their places with porters and others, but it is currently reported at Nottingham that drivers will strike *en masse* if incompetent persons are engaged. It is said the drivers will hold a meeting at Nottingham on Monday. The pointsmen also threaten to strike.

It is believed the Cornish bank liabilities are over one million pounds sterling. Some say the bank can pay in full, but it seems to be the more general opinion that this is impossible in the present state of mining enterprise. It is believed the mines of Western Cornwall alone owe the bank one hundred thousand pounds, the calling in of which would have a most disastrous effect on the whole of the west of Cornwall.

PARIS, Jan. 6.—Late returns show that M. Dufauer Degavardie, Conservative, has been elected to the senate on the second ballot; electoral statistics wonderfully corroborate the reports of progress made by the Republican party in France. Fifty-six conservatives elected in 1876 received 15,646 votes, whereas in 1877 they only obtained 3208 votes, having lost 12,430 votes. Nineteen republicans elected in 1876 received 5,636 votes, and in 1877 received 20,262, gaining 14,626.

LONDON, Jan. 6.—A dispatch from Constantinople says, Sulieman Pasha's appeal has been rejected, and he has been degraded and exiled for life, and now appeals to the Sultan for pardon. Safvet Pasha, now ambassador to Paris, has asked the Sultan to be allowed to remain in Constantinople, and is authorized to postpone his departure. It is possible that another ambassador may be appointed. It is stated that the Montenegrins intend to forcibly enter Podgoritza.

PORT NEUF, Quebec, Dec. 31.—The ice in the river broke last night, carrying away twenty-seven fishing cabins and two men.

EASTERN STATES.

PHILADELPHIA, Dec. 30.—Ex-Congressman, Owen Jones, started from his residence at Wynewood recently to visit a neighbor, and was found before midnight frozen to death by the roadside.

NEW YORK, Dec. 31.—Still the scarlet fever is rapidly increasing, creating considerable alarm. The disease is not confined to any particular quarter. Cases reported to the Board of Health for the last week in November, were 100; first week in this month, 120; second week, 168; and third week, 175, and fourth week, 190.

DETROIT, Jan. 1.—Engineer Chas. Clauser, of the Denver road, was pinned beneath his engine, which jumped the track at Troy, Kan., switch, and, after enduring the agony for two hours, he opened his jack-knife and cut his throat, before those standing by could stay his hand. Singularly enough, Clauser lost his wife and daughter in an accident at the same switch a year ago.

NEW YORK, Jan. 2.—Flags are flying everywhere because of the resumption, yet there is nothing at the treasury, banks nor the exchanges to make the day different from ordinary dull days. Special arrangements sufficient to meet the demand have been made by the sub-treasury to pay out gold for legal tender notes. Clerks in charge of the department expected to be very busy, but they have had very little to do even to the close of the day's business.

CALIFORNIA.

SANTA BARBARA, Jan. 1.—About 9 o'clock last night a tornado, occupying a narrow path, struck the city from the southeast, and took a destructive course through several blocks. Houses, fences, barns and other out-buildings were blown down or unroofed, trees uprooted and their limbs hoisted off, chimneys tumbled, and one life was lost.

SAN FRANCISCO, Jan. 3.—The banks have notified brokers that hereafter they will make no discrimination between gold and greenbacks.

LONDON, Dec. 31.—It is reported in club and military circles that Count Schouvaloff had notified the British Government that the Czar intends to propose the Duke of Edinburgh as Prince of Bulgaria. This proposal is intended as a special sign of friendship of Russia toward England.

YESTERDAY whilst walking round to see the various stores and the good things in them we noticed in particular at PARKER'S MARKET two hind quarters of Beef marked, "RAISED AND FED BY J. GREAVES, NICOLA VALLEY." We are sure that such Beef cannot be equalled in any part of the world. The size is not extraordinary, but the enormous amount of Fat and Flesh on them, with so little bone, is a thing to be astonished at. The quarters can be seen to-day by any one passing and they are worth any one's going that far to see them *

Recent Impressions of London.

No city of ancient or modern times can compare with London in size, population, wealth and the wondrous variety and peculiar phases of its social life. Statistics utterly fail to picture it to the mind's eye. To be understood it must be seen and carefully studied. To walk around it—a distance of forty miles—would take two days. It covers an area of one hundred and twenty square miles. Its 7,400 streets, if extended in a direct line, would reach two thousand six hundred miles or a greater distance than from St. John to Liverpool, England.

Eleven hundred churches minister to the spirtual wants of this gigantic city, while its physical repast every day demands a holocaust of 1,000 oxen, 4,000 sheep, 1,000 swine, and one million pounds of fish. Extending fourteen miles in length with an average breadth of eight miles, and with a population larger than that of the whole Dominion of Canada, its possible growth and numbers, in view of the prodigious stride it has made in the last half century, will prove one of the interesting problems of the day, Every year adds an increasure of fifty thousand to its population. At this rate twenty years would swell the number to more than five millions. The rapidity with which it extends its limits into the country and absorbs the surrounding villages is one of the marked features of its recent history. Like Briareus of a hundred arms it stretches forth its arms and enfolds all within the extent of its grasp. Who can prescribe the boundaries of its future growth? Who, in view of the past, can say—"thus far?" And who can determine the times when the first symptoms of its decadence will manifest themselves? These are economic questions which court enquiry and press for solution upon thinking minds. It is estimated about one hundred and fifty thousand persons arrive in London daily. This affords some idea of the shifting population that throngs its streets.

What most attracts the attention of the visitor is the marked contrasts that present themselves at every turn. Grandeur and squalor, wealth and poverty, culture and ignorance, jostle each other in unseemly proximity. By the side of unbounded affluence stalks gaunt starvation. While the titled nobility and the merchant princes roll in unbounded wealth, thousands upon thousands eke out a wretched existence and at night cower in narrow lanes and filthy alleys, sleeping on the bare pavements. Over ten thousand are houseless amid the wilderness of its 528,994 buildings. By the side, to, of the highest intellectual culture and moral worth are to be found abject specimens of the most depraved ignorance, sunken in the deepest sloughs of criminality. Depths of degradation there are, which have not yet been sounded—limits of shame and suffering which philanthropy has not yet gauged. What scenes do its endless streets present after night-fall, when glaring wine palaces and reeking beer shops are crowded with men, women and children, victims of the terrible crimes of drunkenness. No wonder the advocate of temperance almost despairs of eradicating an evil so widespread and whose ramifications strike so deeply into the social system.

Nor is the variety of nationality less marked. It is almost a trite saying that London has more Scotchmen within its limits than the whole of Edinburg; more Irish than Dublin; more Catholics than Rome, and more Jews than Palestine. To keep this hive of humanity well in check requires a posse o ten thousand policemen—itself an army. Within sound of Bow Bells are streets and alleys, the haunts of thieves and gamblers, where a well-dressed person is not safe by night or day.

The question very naturally presents itself: Is the fate which overtook such mighty cities as Babylon and Rome destined for London? Will her palaces crumble to dust, and will her world-embracing commerce and matchless industries find a seat in other lands? It would seem, not. Her peculiar position as the capital of a country, lying in the highway between the old and new worlds, must always give her a commanding influence. It is difficult to see, how the channels of trade can be diverted from the shores of Great Britain and made to flow in other directions. Her location in the heart of one of the most fertile and productive countries in the world must enable London to assert her claim in all time to come to a high position among the great cities and capitals of both worlds. As long as the skies shed their propitious influences upon this fair land and its soil retains its productive capability, so long will this first of cities hold a firm grasp upon the trade and commerce of the world. The inventions and improvements of coming years will do much to mitigate the evils of to-day and enable larger masses of mankind to segregate with far less discomfort. Social inequalities, in the future, will be less marked; poverty materially lessened; crime made to slink abashed from quarters where it now holds high carnival.

To see, thoroughly study and understand this modern Babylon, is of itself an education. Not to have seen it and not to have felt the influence of its magic spell, is to have sustained a positive loss.

SPEAKING of the Chinese policy, an interesting fact showing that it is one that two nations might play at, might be mentioned. The Prince of Wales on his way to the opening of Parliament, to take his seat in the House of Peers, lately passed through Luton, a district 30 miles from London and the great seat of the straw and plait-making and bonnet sewing industry. In 1871, 45,270 women and only 3,593 men (the figures include girls and boys) were engaged in that business. But, like other, it has become depressed of late and the people brought the matter before the Prince in an address. Among other things, they say that "it is essential that a demand be created for hats and bonnets of our English-made plaits *in preference to the productions of a people such as the inhabitants of the Celestial Empire of the Chinese.*" They ask the aid of the Queen, the Princess of Wales, etc., in order to bring about the desired result.

THE *Interior*, a religious paper in Chicago, goes into the obituary business at six cents a line, and, judging by the following sample, George Washington Childs will have to look out for his laures. Here is how it keeps green the memory of one of its most honored subscribers:

"The Lord loveth a cheerful giver—
Then she was one:
So the meal in her barrel never,
Never went donn."

In a different line, but about on a par with the above, is the following addendum to a marriage notice in the *Schuylkill Republican:*

"Oh Annie, thou has left us,
Thy place is hard to fill;
The one that has bereft us
Is James Brown, from Forestville.

The first commandment don't forget,
Increase and multiply;
May life be long and love be strong,
Say, how is that for high?"

* JOB BATCHELOR.

JOTTINGS.—The year of 1879 promises to be an eventful one in the history of this Province. Important public works are to be carried out, and other enterprises are fostered for future development. This is positive, because our newly elected statesmen have pledged themselves, and that is sufficient, (you know). What more appropriate place to jot them down as they occur than in one of the many kinds of diaries to be found at the head of Bastion street.

* T. N. HIBBEN & Co.

THE VICTORIA PROVIDENT ASSOCIATION

THE OBJECT OF THIS ASSOCIATION IS TO secure pecuniary aid to the Families of Deceased Members, so that a small subscription shall realize an important benefit.

DIRECTORS:

RT. REV. BISHOP CRIDGE,
REV. P. JENNS,
J. H. TURNER,
I. W. POWELL, M.D.,
DR. TOLMIE.

OFFICERS:

DR. W. F. TOLMIE—President,
REV. P. JENNS—Vice-President,
BANKERS—Bank British Columbia,
G. R. FARDON—Secretary.

REGULATIONS:

Any person over 18 years of age and under 60, if in good health, may become a member on paying as follows:—From 18 years to 30, $3 per annum; from 30 years to 35, $4 per annum; from 35 years to 40, $5 per annum; from 40 years to 45, $7 per annum; from 45 years to 50, $10; from 50 years to 60, $15 per annum.

The annual payments to continue for five years when they will cease; but in addition to the above yearly payment ONE DOLLAR will be required from every member of the Society on the death of any member, and this subscription shall be continued during life.

BENEFIT:

The amount of Benefit will be governed by the number of members. Thus, if there are one thousand members, the nominee of a deceased member will receive one thousand dollars.

AVERAGE NUMBER OF DEATHS:

The number of deaths during nine years have averaged five per annum to the thousand members in a similar society at Petaluma, Cal., and according to the published reports of the Registrar in Victoria, the average has not exceeded that number.

PROFITS:

From the above average of deaths the following calculation is suggested:—

Subscription beginning at 40 years of age at $5 for 5 years........................ $25 00
Probable number of deaths in 5 years, 25, $1 25 00

$50 00

It seems only reasonable to suppose that within five years the Association will number at least one thousand members; but even a smaller number, it will be seen, will secure an important advantage in case of death.

For further information apply by letter to

Secretary of the Victoria
